PM underlines the

need for responsible

oil pricing and moving

Our Bureau

New Delhi: India has contributed

significantly to energy justice by

focusing on greater access to affor-

dable and efficient energy in re-

cent years, Prime Minister Na-

"India's contribution at the onset

of an era based on energy justice is

significant," he said in his inaugural speech at Petrotech 2019 confe-

rence. "Energy justice is a key

objective for me and a top priority

for India. Towards this end, we ha-

ve developed and implemented ma-

ny policies. The results of these ef-

India has improved its ranking in the World Bank Ease of Getting

Electricity index, from 114 in 2014 to

29 in 2018, largely due to focus on in-

creasing access, according to the

Prime Minister. All homes are tar-

Distribution of LED bulbs resul-

ted in annual savings of ₹17,000 cro-

re, Modi said. New cooking gas

connections to 6.4 crore house-

Ujjwala scheme enhanced LPG co-

verage to more than 90% homes.

"Suitably priced, stable and sus-

for the rapid growth of the econo-

my. It also helps the poor and depri-

ved sections of society to partake

The energy sector is a key enabler

of growth, especially for India,

which has recently become the

of economic benefits," Modi said.

from 55% just five years ago.

geted to be electrified this year.

forts are now evident."

Honest Cos Won't Face Action: Goyal

RELIEF ON CARDS Interim FM vows to protect genuine investments to allay angel tax concerns as LS passes interim budget

Our Bureau

New Delhi: The government will ensure there is no action against honest companies that bring genuine money at a premium, interim finance minister Piyush Goyal said, assuring the startup community that they would not be unnecessarily targeted over the so-called angel tax.

In his reply to the debate on the in- members during his reply. terim budget in the Lok Sabha on Monday, Goval dismissed allegation of fiscal slippages, saving the budget has been very "honest" with numbers. The Lok Sabha later passed the interim budget for fiscal 2020 by voice vote, amid a walkout by the

Congress, NCP and CPM members. Replying to a question on the budget not looking into the issue of angel tax, Goval said the government would take measures to protect genuine investments that in the interim budget, he said. were brought in at a premium.

Some startups have received noti- FISCAL DEFICIT ce under the so-called 'angel tax' where the share premium received in excess of the fair value was treated as income from other sources and taxed under a provision introduced under Section 56 to prevent

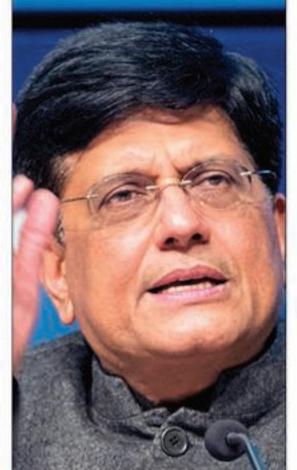

money laundering.

"The government is taking hard steps to ensure that action is taken against bad companies," he said, adding that no action of any kind was taken against honest companies that had brought "genuine money" at a premium. "We will protect honest people and give harshest punishment to the dishonest," he said, amid continuous shouting by some opposition

Goyal dismissed the charge that the government had made important tax changes and policy announcement in the interim budget, even as he pointed to the tax proposals in the interim budget of FY15.

"They could not even wait four months and reduced tax on SUVs... which farmer buys SUVs," he said, hitting out at the Congress that was in power at the time. The government has not changed any tax rate

He said the fiscal deficit for FY19 came in at 3.367% of GDP in the interim budget, which on rounding off became 3.4%. The budget for the year had estimated the deficit at 3.3% of GDP.

Goyal said if the government had reduced spending by just ₹5,000 crore or raised revenue by that much, the 3.3% target would have been met. "The government would not have had any difficulty in cutting spending by ₹5,000 crore," Go-

BAD COS ON TARGET The govt is taking hard steps to ensure that action is taken against bad companies

SCHEME FOR FARMERS

Perhaps people (living) in big palaces with lot of inheritance, the namdaars will not understand what this means for small farmers

PIYUSH GOYAL

Interim Finance Minister

yal said, adding that the Prime Minister wanted to present an 'honest budget' and asked for whatever figures came into be presented to the country. Similarly, a ₹1,500ve reduced deficit to 3.3% of GDP

against 3.4% provided in the budget, he said, presenting the government's record on consolidation. He said the Narendra Modi government inherited a fiscal deficit of 4.5% that now improved to 3.4%.

PM KISAN SAMMAN

Goyal said the Modi government had taken a lot of initiatives in the past four-and-half years for the benefit of the poor, farmers and the middle class and the 2019-20 interim budget was a continuation of that. On the PM Kisan Samman Nidhi. under which small farmers would be provided ₹6,000 a year, Goyal said those living in palaces would never understand the importance of ₹2,000 every four months and hence they "belittle" the scheme.

The Congress party had said the

amount was too little. Goyal said the scheme would cost ₹75,000 crore in FY20 and ₹20,000 crore in the ongoing fiscal year. In contrast, he said, the only benefit from the UPA government to the farmer in its 10 years was a ₹52,000-crore loan waiver: "Perhaps people (living) in big palaces with lot of inheritance, the namdaars won't understand what this amount means for small and marginal farmers," he said.

Venezuela Plans to Double Oil **Exports to India**

Our Bureau

New Delhi: Venezuela is planning to double exports to India in the face of US sanctions that is fast shrinking the pool of its oil buyers.

"We are selling more than 300,000 barrels per day and we want to increase that. We want to double that amount. We want to establish contact with all the buvers and also continue relationship with the present buyers," Manuel Quevedo, Venezuela's oil minister and head of state producer Petroleos de Venezuela SA (PDVSA), told reporters at the Petrotech

conference on Monday. Quevedo met oil minister Dharmendra Pradhan and top executives of Indian refiners at the conference to discuss increased trade possibilities. State refiners have limited technical ability to process Venezuelan crude.

Venezuela is faced with a large inventory build-up after the US refiners stopped taking supplies from PDVSA. Venezuela's attempt at pushing more crude into India will have its own challenges. Payment for Venezuelan oil can also be a hurdle although presently it is unclear how the sanctions will impact payment channels.

Justice, Says Modi towards flexible markets

NARENDRA MODI

India Played Key

Role in Energy

Suitably priced, stable and sustainable energy supply is essential for the rapid growth of the economy. It also helps the poor and deprived sections of society to partake of economic benefits

ment. India has shown tremendous resilience as an anchor of the world economy," said the PM. Modi also underlined the need for responsible oil pricing and flexible

holds in just three years under the markets. "We need to move to responsible pricing, which balances the interests of both the producer and consumer. We also need to move towards transparent and flexibtainable energy supply is essential le markets for both oil and gas."

India is the third-largest energy consumer, with demand growing at more than 5% annually and imports comprising more than 80% of the oil it consumes. Price spikes hurt consumers and upset the fiscal maths, stoking inflation, ensixth-largest economy. "In an un- larging the subsidy burden and certain global economic environ- putting pressure on local currency.

UAE May Invest More in Refining, Petrochem

New Delhi: The UAE is looking to make more investments in India's refining and petrochemicals sector, hoping to build a strategic partnership between the two countries. "India is not only an important market for us, but a very strategic partner," said Sultan Ahmed Al Jaber, minister of state in the UAE and CEO of state-run Abu Dhabi National Oil Company. The UAE had last year inked a pact to invest in the ₹3-lakh cr refinery-cum-petrochemicals facility being planned in Maharashtra. -Our Bureau

Green Energy Cos Oppose Cap on Tariffs at Auctions

Kaavya.Chandrasekaran @timesgroup.com

Bengaluru: Renewable energy developers have been opposing ceiling tariffs at auctions ever since they began, but government agencies conducting the auctions, keen to keep tariffs low, have been adamant about imposing them. The Indian Wind Turbine Manufacturers Association (IWTMA) has opposed such tariffs, by petitioning Appellate Tribunal for Electricity and getting a stay order.

In April last year, Tamil Nadu Electricity Regulatory Authority set a feed in tariff for wind power of ₹2.80 per unit. State power regulators continue to set feed in tariffs for wind projects, depending on various factors such as speed, intensity of wind etc, but state agencies conducting auctions have lately been ignoring them, preferring to hold auctions and thereby get a still lower tariff.

Traditional Knowledge, Cheaper Drugs on India's Agenda for WTO

Kirtika.Suneja

New Delhi: India wants the na, African group and the US-World Trade Organization (WTO) to address issues related to exploitation of traditional knowledge, food security and access to affordable medicine going ahead.

In its reforms proposal, that it plans to submit to the organisation, India has also sought amendment of laws on unilateralaction by members on trade issues and resolution of the WTO's dispute settlement system that is rendered unproductive with the US blocking the appointment of judges for more than two years.

India has been trying to revive talks to strengthen global norms to protect traditional knowledge from reckless patenting by corporates through commercial exploitation of natural products by obtaining patents without fairly compensating the communities from tions, and insisting on penali- ment mechanism of the body

proposal has been formulated ce or increase subsidies for doin the wake of various proposals made by Canada, EU, Chi-EU-Japan trilateral to reform themultilateral tradebody," said an official in the know of the development.

Focused

strengthening

the multilateral

trading system

India has also sought amendment of laws on action by

memberson ments. trade issues The proposal assumes significance in the light of the US not only unilaterally crippling the dispute settlement mechanism but also accusing emerging economies including India and China of eating into the development rights of poorer na-

which these originate. "The sing countries if they introdureporting to the organisation. "More than what we say in the paper, it is important to build collations because there are only a handful of countries who aretalkingof reforms. We need a critical minimum to form a on

collation to drive the agenda,"

said Biswajit Dhar, professor at

Jawaharlal Nehru University.

One of the themes of India's reand safeguarding form paper emphasises on amendevelopment concerns, India has ding laws of members that mandate unilateral action on trade isalso sought the sues. With more than half of WTO's attention WTO membership now involved to address asymin plurilateral trade agreements metry in its agreeincluding ecommerce and investment, which go beyond the ministerial decisions, India has also stressed on progress on ministerial decision on implementation related issues and concerns. India has pointed out the US'failure to put for thany proposal to address its concerns on the functioning of the dispute settle-

KISAN -15 DEC. 2019 PUNE **CONSUMER CONNECT INITIATIVE**

Kisan Agri Show in Dec

The 29th edition of Kisan agricultural exhibition is slated for December 11 to 15

ResponsePune @timesgroup.com

ISAN, India's largest gathering of Agriculture is scheduled from 11 to 15, 2019 in Pune. This will be the 29th edition of Kisan exhibition, which started in 1993. This year, over 2,00,000 farmers from across India are expected to visit the fair over five days while 700+ exhibitors will display their products and services. The

exhibition will be spread over 20 acres of exhibition Ground at PIECC, Pune.

Alongside the product display, concurrent programmes include conferences, live demonstrations, theme arenas will be part

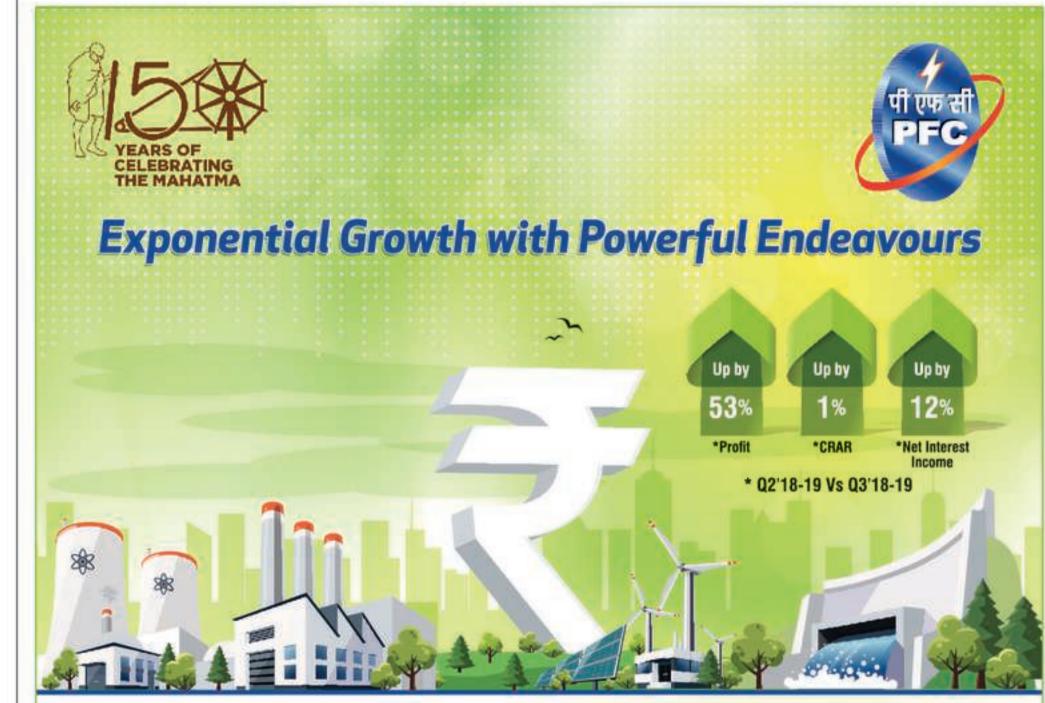

of KISAN 2019. A B2B pavilion is planned to initiate a business dialogue to bring new technology and services in Indian agriculture.

Farmers would be able to explore a much wider choice of technologies, innovations, and opportunities. They will be able to interact with technocrats and scientists, as research and education institutions will display innovation thoughts and advance technologies in agriculture at KISAN Agri Show.
