### Vistara to fly on international routes

Vistara, a joint venture of India's Tata Sons and Singapore Airlines, can now fly to international destinations, Ministry of Civil Aviation secretary told. In June, the airline met the requirement of owning a fleet of more than 20 jets, needed to fly internationally, and hoped to launch international services last year. But it lacked regulatory approvals.

Jet Airways withdrew five more aircraft from service owing to non-payment of lease rentals, taking the total number of such

# Regulator allows 37% increase in tariff from April 1 **Reliance firm to hike** gas carrying charges

#### FC BUREAU NEW DELHI, MARCH 13

The Petroleum and Natural Gas Regulatory Board (PNGRB) approved a 37 per cent rise in tariff from April 1 for the pipeline that transports eastern off-shore KG-D6 gas of Reliance Industries (RIL) to its customers. The tariff approved is almost half of what sought by East-West Pipeline, the operator of

the pipeline. With the oil regulator's nod, it is expected that the rise in tariff may lead to an increase in the prices of fertiliser and city gas like CNG, as they use the gas brought through the pipeline starting from Kakinada in Andhra Pradesh and running up

to Bharuch in Gujarat. The PNGRB in its final tariff order on Tuesday said, "Transporting natural gas on the East-West pipeline would cost Rs 71.66 per million British thermal unit (mmBtu) on gross calorific value (GCV) basis from April 1 as compared to Rs 52.33 per mmBtu tariff charged for April 1, 2009 to March 31, 2019." Earlier, the company had sought the tariff to be

## **RIL halts supplies to Venezuela**

NEW DELHI, MARCH 13: Reliance Industries said it had halted supply of diluents to Venezuela's national oil company PDVSA and will not resume such sales until sanctions are lifted. Reliance, a key oil client of PDVSA, has not increased oil purchases

raised to Rs 151.84 per mmBtu with effect from April 1, 2018, nearly three times the present tariff and more than double the now permitted tariff. The pipeline primarily transports KG-D6 gas, produc-tion of which has steadily

from Venezuela, a compa-ny spokesman said. US Secretary of State Mike Pompeo met India's Foreign Secretary Vijay Gokhale and they dis-cussed India's purchases of oil from the current Venezuelan government led by Nicolas Maduro.

dipped from 69.43 million standard cubic metres per day achieved in March 2010 to under 3 mmscmd now.

"The tariff has been worked out based on information provided by the entity and deliberations. However, PNGRB intends

to verify/audit the infor-mation provided for tariff determination and method of cost allocation, etc. by an internal team of PNGRB or by an external agency," the order said, adding that the tariff will be subject to revision based on the audit of information and data.

Originally, EWPL had proposed a levellised tariff of Rs 55.91 per mmBtu for transporting the gas beginning April 1, 2009 but the PNGRB fixed a provi-sional tariff of Rs 52.53 per mmBtu. The company in October 2017 proposed a final tariff for the pipeline at Rs 78.72 effective from April 1, 2009, till the end of the economic life of the pipeline, that is up to

March 31, 2034. When the PNGRB sought clarifications, EWPL updated the tariff filing to state that Rs 52.23 per mmBtu would be the tariff till 2017 and Rs 151.84 would be charged from 2018-19 to 2035-36. However, the PNGRB order said the pipeline operator claimed a total capex of Rs 18,307.37 crore under two heads--actual capex of Rs 16.347.96 crore and future capex of Rs 1,959.41 crore.

# Vehicle registration data to be put on sale

#### FC BUREAU CHENNAI, MARCH 13

Organisations and researchers can buy bulk data pertaining to vehicle registrations on an annual basis from the next fiscal. However, the government has put in place checks and balances to ensure the security of this data. The Ministry of Road Transport and Highways collects and holds data as part of issuance of vehicle registration certificates (RC) and driver licence (DL). The ministry currently shares complete data only with specified agencies such as police, banks and

As portice, banks and insurance companies. As per the Bulk Data Sharing Policy and Pro-cedure', sharing of vehi-cle registration data in a "controlled manner, can support the transport and automobile industry". The sharing of data will also help in service improvements and wider benefits to citizens and government, the policy said.

Organisations requesti-ng for data should be regi-stered in India with at least 50 per cent ownership by an Indian resident or an Indian company. All bulk data accessed by the organisation shall be proc-

essed/stored in servers/ data centre residing in India. The data at any point shall not be transferred/processed/ stored in a server outside India, it sa-

id. The commercial organisations and individuals seeking bulk data will have to pay an amount of Rs 3 crore for FY 2019-20. Educational institutions can use this data only for research and internal purposes and would be provided one time on payment of an amount of Rs 5 lakh for the FY 2019-20. There shall be an annual increase of 5 per cent from the FY 2020-21  $\,$ onwards.

But government has warned that breach of data will result in action under the IT Act and other applicable laws besides debarring the agency from access to this data for a period of three years.

It will monitor, control and block any sensitive

# Indian cuisine ranks among world's Top 10

#### **RITWIK MUKHERJEE** KOLKATA, MARCH 13

Some food for thought, for sure! Indian cuisine is among the Top 10 popular cuisines in the world, standing at number nine, with an average popularity score of 62 per cent across 24 countries.

However, when it comes to preferences, 93 per cent Indians like their own cuisines. The Indians also have a palate for Italian (80 per cent), Chinese (77 per cent) and American cuisines (75 per cent). But the Indians have lower tolerance for Norwegian, Filipino, Finnish and Peruvian cuisines. This was revealed by a recent survey conducted by the UK-based YouGov, internet-based market

research and data analytthe 24 nations ics firm that has opera-tions in Europe, North America, the Middle East and Asia-Pacific. The survey was conduct-
