Bank, outlook 'negative'

Private sector lender Yes Bank said India Ratings and Research (Ind-Ra) had downgraded its long-term issuer rating to 'IND A+.' "India Ratings and Research has downgraded Yes Bank's long-term issuer rating to 'IND A+' from 'IND AA-," the bank said in a filing. "The outlook is negative. Ind-Ra has affirmed the bank's short-term issuer rating at 'IND A1+'," it added. PTI

Google to unveil 'Build for Digital India'

Google said it had signed a statement of intent with the Ministry of Electronics and IT for rolling out 'Build for Digital India' programme. The programme will offer a platform to engineering students to develop technology-based solutions that tackle key social issues, a release said. Students will take part in online and offline learning opportunities on key technologies. PTI

PNB board to meet on Sept. 5 to mull merger

Punjab National Bank (PNB) on Saturday said its board of directors will meet on September 5 to consider the lender's merger with Oriental Bank of Commerce (OBC) and United Bank of India. In a statement, PNB said, the board will meet [on September 5] to "consider the amalgamation of the Oriental Bank of Commerce and United Bank of India into Punjab National Bank." PT

CG Power sacks CFO for breach of trust

After removing founder Gautam Thapar as chairman of the company, the board of fraud-hit CG Power and Industrial Solutions has sacked the chief financial officer V.R. Venkatesh over alleged 'misconduct' and breach of trust. CEO and MD K.N. Neelkant, sent on leave on May 10 by the board to enable proper probe into financial irregularities, continues in his role for

Indian companies eye Russian oil fields

Firms in talks to buy significant stake in eastern cluster oil fields; investments likely in upstream sector

PIYUSH PANDEY

A consortium of Indian oil firms is in talks to buy a significant stake in the eastern cluster oil fields in Russia with investments running into billions of dollars.

This comes after Indian oil firms have recovered more than one-third of their \$5 billion investments made in Russia within the last three years as dividend after accounting for capital expenditure and operational expenditure.

Deal at summit

A deal is likely to be announced at the Eastern Economic Forum and the An-Bilateral Summit between Prime Minister Narendra Modi and Russian President Vladimir Putin in Vladivostok next sources in the know of the development told The Hindu.

"It's a combination of producing assets and discovered assets that will be put on pro-

Money in oil: There are huge opportunities for investments in oil and gas in Russia. Russian investments will help change India into a gas-based economy, says the Oil Minister. • REUTERS

duction soon. We need to see what kind of fields are likely to be clubbed [into] these assets. So, it is premature to talk about reserves and valuations, but we are putting in our expression of interest," a source said.

Minister for Petroleum

of Steel Dharmendra Pradhan is already in Russia with a delegation of Indian oil firms and Indian Oil Corporation Ltd. chairman Sanjiv Singh for exploring partnerships with Russian firms. Indian firms are expected to invest in Russia's upstream sector while Russian firms

are expected to invest in India's downstream sector. Mr. Pradhan met Russia's energy minister Alexender Novak and discussed Indian firms' interest in investing more in Russian oil and gas fields. "Discussions [helped] recognise that there are still enormous opportunities for investments in oil and gas assets in Russia, and Russian investments in new initiatives launched [will help] transform India into a gasbased economy through CGD, LNG terminals and use of natural gas in transportation," Mr. Pradhan tweeted after meeting his Russian counterpart.

Mr. Pradhan also met Russian Deputy Prime Minister Yuri Trutnev and discussed further cooperation in sourcing of crude oil from Far East of Russia.

D. Rajkumar, chairman, BPCL, said, "We are keeping some money [aside] for investment in upstream assets. As far as Russia is concerned, out of our \$1 billion investment, we have recovered \$340 million in the last three years by way of dividend, after accounting for capex and opex."

Indian energy companies have so far invested close to \$10 billion in acquiring stakes in hydrocarbon assets

Auto sector sees slow start to festive offtake

'Enquiries-to-sales conversion weak'

LALATENDU MISHRA

The weeks prior to the onset of the festival season seem to have remained subdued for the automobile sector. with analysts seeing a slow start to festive offtake.

"Our recent interaction with leading two-wheeler (2W), passenger vehicles (PV) and commercial vehicles (CV) channel partners in key markets of Delhi, Maharashtra, Kerala and Rajasthan indicated no signs of demand recovery as enquiries-to-sales conversion continues to remain weak year on year," said Deep Shah, research analyst, and Poorvi Banka, research associate, Institutional Equities, Prabhudas Lilladher Pvt. Ltd.

"However, with the onset of key September festivals like Ganesh Chaturthi in Maharashtra and Onam in Kerala, there has been an increase of 5-8% in retail sales (especially in PV and 2W segments), while CV sales continue to remain weak," they said.

In the PV segment, the euphoria around new product launches is driving enquiries. Though the PV demand trend remained weak across major markets, with enquiries-to-sales conversion even weaker for existing models, recent launches such as Hyundai Venue, Kia Seltos, MG Hector and Suzuki XL6 have helped bring footfalls to showrooms.

"The average inventory levels for most PV players remained at 25-30 days (stable month-on-month) except for Tata Motors, where it is still higher at 35-40 days," Prabhudas Lilladher

"PV sales in key festive States like Kerala is witnessing 5-8% MoM recovery in bookings, led by onset of Onam festival. Our interaction with channel partners indicates there was no significant impact of floods in Kerala except in a few regions of northern Kerala," they said.

In the two-wheeler segment, inventory still remained high despite continuous correction. "While demand continues to remain weak in major markets, we note 5-8% volume recovery in rural pockets of Maharashtra. However, in tier 2 cities like Pune there is still no sign of demand recovery even for the Ganesh festival yet, as volumes are down 10-15% YoY (festive to festive) so-far," the analysts said, adding the CV segment remained impacted on account of weak freight availability.

The slump has also impacted the luxury vehicle and super bike segments. "The ongoing economic slowdown in India and slump in the automobile market has also impacted the super bikes segment as people are deferring purchase decisions. We hope things will change with improved liquidity during the festive season," Ajinkya Firodia, managing director, Motoroyale Kinetic, said on the sidelines of the launch of MV Agusta Turismo Veloce 800 in Mumbai.

The automotive components sector will also continue to suffer and the sector's revenue growth is expected to be halved in next two fiscals, according

Mondelez to strengthen presence with Oreo

Ties up with ice cream brand Cornetto

INDRANI DUTTA

Mondelez India Private Ltd. (formerly Cadbury India Ltd) is focussing on the Oreo brand and its variants to strengthen its presence in the Indian biscuit market, according to Sudhansu Nagpal, director - marketing (Biscuits) Mondelez India.

"We forayed into the biscuit category in 2011 with Oreo and since then, India has emerged as one of the top three markets (after USA and China) for the brand by volume," he told *The Hindu*.

Oreo's launch in the cream biscuit segment was followed by the launch of Bournvita biscuits in 2016. In 2019, it launched Bournvita Banana & Oats in the breakfast segment.

Mr. Nagpal said that the company was among the top five players in the cream biscuit segment, which accounted for about 25% of

L&T Construction to build Mumbai's second airport

Step-down subsidiary of GVK awards ₹6,200 crore project

LALATENDU MISHRA

Navi Mumbai International Airport Private Ltd. (NMIAPL), a step-down subsidiary of GVK, has awarded the engineering, procurement and construction (EPC) contract for the greenfield Navi Mumbai International Airport to Construction.

L&T had built the iconic Terminal 2 of the existing airport of Mumbai and also undertook the airport's reconstruction work spanning several years even while the airport was fully functional.

According to people in the know of the development, the order is worth about ₹6,200 crore. The companies had not specified the size of the order. It would take about 30

months from now to com-

plete the project which was

process of hill-cutting, landlevelling and land-filling of marshy land, including mangroves, is believed to have delayed the project. The project also had to

wait for the relocation of several thousand project-affected people. This project is being implemented in a public private partnership format between State government arm CIDCO and GVK, which operates the existing airport of Mumbai. GVK had bagged

minal works, including departure and arrival forecourts, airfield development works (a 3,700 metre-long erational by 2019. A complex south runway, apron systems, taxiway systems, airfield ground lighting and other facilities), landside fa-

crore.

The planned passenger terminal building will initially handle a capacity of 10 million passengers per annum (MPA). The project will subsequently be enhanced to handle 20 MPA. This will go a long way in decongesting the existing airport that

BPCL lines up investment of ₹1.1 lakh crore

SPECIAL CORRESPONDENT

State-owned Bharat Petroleum Corporation Limited (BPCL) has lined up an investment of ₹1.1 lakh crore in the next five years to expand its refining, marketing, petrochemicals, pipeline and natural gas businesses.

Chairman D. Rajkumar said, "It won't be on refining expansion alone. For Petchem, we will invest ₹20,000 crore. Another ₹20,000 crore for upstream business. For marketing, we have allocated ₹30,000 crore, and ₹6,000 crore in expanding pipeline capacity."

The company plans to invest ₹22,954 crore to expand its Numaligarh refinery from capacity of 3 metric million tonnes per annum (mmtpa) to 9 mmtpa.

"This will be the largest investment in that part of the country. We are laying a pipeline from Paradip to Numaligarh to source crude for the refinery," Mr. Rajkumar said.

In a bid to expand its petrochemicals capacity, the company is setting up a petrochemicals project in Rasavani at a cost of ₹25,000 crore. The company has set aside ₹20,000 crore to invest in its upstream business. Most of it will go towards the Mozambique gas fields. In marketing, the investments will be aimed at increasing BPCL's retail market share to 33% from 27% now.

SMEs from 5,934 cities

Interestingly, if the numbers are anything to go by, then GlobalLinker has indeed found flavour in the vast SME community.

Launched in 2015, Global-

Sameer Vakil

Linker currently has more than 2.65 lakh SMEs registered on its platform. Further, these SMEs come from 154 different countries or from 5,934 cities across the

More importantly, the SMEs are able to unlock various benefits by being a part GlobalLinker the community.

To start with, there are more than 100 offers on products and services offered by member SMEs. Companies from various sectors have even formed subgroups to have very focussed engagements.

Promoters of companies also regularly write on issues related to their sector or business environment to have an interactive discussion with fellow promoters. "SMEs have written and

contributed more than 2,500 articles on GlobalLinker, initiated 25,000 discussions and created more than 365 different groups on the platform," said Mr. Vakil, SMEs have written and contributed over 2,500 articles on the platform

SAMEER VAKIL Co-founder, GlobalLinker

while adding that over a million connections have been made between SMEs on the platform.

Mr. Vakil, along with Summi Gambhir and TJS Varadhan, founded what he calls an algorithm-based matchmaking and business networking platform, which currently has SMEs across 39 industries and 208 subindustries with the highest representation from the food and beverage sector followed by construction and real estate.

At a time when a digitised or online presence is considered a necessary ingredient for business growth, GlobalLinker allows member SMEs to create a free ecommerce store apart from helping them create digital business cards, digital business profiles and also a digital product catalogue.

Apart from India, local

versions of GlobalLinker are live in Thailand and Philippines. Going ahead, the company is eyeing a presence in regional associations such as South Asian Association for Regional Cooperation (SAARC), Association of Southeast Asian Nations (ASEAN), European Union (EU) and North American Free Trade Agreement.

SEBI plea against Assam Company

nancial irregularities.

The firm had challenged the probe before the Gauhati High Court, which had set aside the investigation in March, 2019. SEBI had preferred an appeal before the division bench of the high court; however, no order of stay had been passed in the said case, it added. The NCLAT said the appeal by the regulator was not maintainable in the absence of any violation of the provisions of the code or any existing law or material irregularity.
