Every child under 'immediate threat' from climate, poor diet: UN

- The world is failing to protect children from the health dangers posed by climate change and poor diet, a landmark UN report said, warning that every child is under "immediate threat". According to more than 40 of the world's pre-eminent child and adolescent health experts, not one country on Earth is adequately protecting the next generation from the impacts of carbon emissions, the destruction of nature and high calorie and processed foods.
