Past cess surplus to halve states' GST deficit in FY20

ENS ECONOMIC BUREAU
NEW DELHI, FEBRUARY 21

THE CENTRE will use about Rs 28,000 crore of the Rs 47,271 crore absorbed by the Consolidated Fund of India in FY18-FY19 period as 'surplus' revenue from the GST compensation cess to reduce the state governments' GST revenue shortfall in FY20. Even after this, the states' GST revenue (SGST) in FY20 will be some Rs 28,000 crore short of the level they would have achieved under the 14 per cent 'guaranteed' annual growth formula.

Some Rs 20,000 crore of the surplus that merged with the CFI was used to bridge states' shortfall in the final months of FY19.

Given the wide gap between the GST compensation fund and the funds required to compensate the states' GST revenue shortfall, there has been considerable friction between the Centre and state governments in recent months. While states wanted the Centre to meet its 'constitutional obligation', the Centre remained ambivalent on how the issue would be tackled. Clarity on the Centre's stand emerged when, in her Budget speech, Finance Minister Nirmala Sitharaman said, "It is decided to transfer to the GST compensation fund balances due out of collection of the years (2017-18 and 2018-19), in two instalments. Hereinafter, transfers to the fund would be limited only to collection by way of GST compensation cess."

Some states are threatening to move the Supreme Court against the Centre's decision. Kerala finance minister Thomas Isaac said the state government would approach the apex court under Article 131 to secure the pending GST compensation from the Centre. West Bengal finance minister Amit Mitra had said that it was for the Central government to devise a mechanism for payment of compensation to states under GST, if the fund set up for the purpose ran dry, given the silence of the relevant law on an alternative mechanism.

Of the Rs 47,271 crore ploughed back from CFI, Rs 41,624 crore has already been distributed to states. The balance will likely be disbursed by March-end.

The guaranteed level of SGST revenue in the current fiscal is Rs 6.70 lakh crore. The Centre's Budgeted GST revenue (CGST, compensation cess), according to the revised estimate, is Rs 6.12 lakh crore, as against the original estimate (BE) of Rs 6.63 lakh crore.

The gross GST collections averaged at Rs 1.02 lakh crore/month in the April-January period. The collections fell woefully short of estimates in earlier months, but these have picked up in December-January. It is expected that with the aggressive drive to boost revenue with restrictions on undue input tax credit claims and improved compliance, the collections would be robust enough in February-March period for the Centre to meet the revised estimate. **FE**

USING SURPLUS REVENUE

₹28,000 cr

The Centre will use about Rs 28,000 crore of the Rs 47,271 crore absorbed by the Consolidated Fund of India in FY18-FY19 period as 'surplus' revenue from the GST compensation cess to reduce the state governments' GST revenue shortfall in FY20

J&K GLOBAL INVESTORS' SUMMIT ROADSHOW

'Will ensure investment is not held hostage to law & order disturbances'

MAYURA JANWALKAR
MUMBAI, FEBRUARY 21

EVEN AS curbs on the use of internet prevail in Jammu and Kashmir (J&K), Kewal Kumar Sharma, advisor to the J&K lieutenant governor, on Friday said the administration will take steps to enable businesses that depend on the Internet to ensure that it is not held hostage to law and order disruptions. Sharma was among senior J&K bureaucrats who were in Mumbai on Friday as part of a roadshow ahead of the Jammu and Kashmir Global Investors Summit in May.

"In today's business environment, all kinds of connectivity are needed. That will be provided. We will work out the regimes to secure that in case there are businesses that operate only on Internet... we will have arrangements, we will work on technical methodologies so that the investment that is coming to the state is not held hostage to law and order disturbances, if any, in the future," Sharma said.

Asked if curbs on the use of the Internet are a concern among investors, Sharma said: "Internet restrictions have been eased over the last month. Every fortnight there is a review. Whatever residual restrictions are there, are being eased off. It's only a temporary thing because the situation is becoming much better, it is more normal now. At the same time, the restrictions that remain are there so that people don't make use of the Internet to create disorder. This matter was also raised before the SC. We are confident that in the coming months, we will be able to further minimise the restrictions."

Jammu and Kashmir Lieutenant Governor Girish Chandra Murmu with Kotak Mahindra Bank Executive Vice Chairman & MD Uday Kotak in Mumbai on Friday. *Ganesh Shirsekar*

Aiming at securing investments worth Rs 2 lakh crore in the next 10 years, senior bureaucrats from the Union Territory on Friday invited investors from Mumbai to set up shop in J&K.

Presentations made at the roadshow, the third such after Bengaluru and Kolkata, spoke of 14 focus areas including tourism, infrastructure, real estate, food processing, horticulture, film, information technology, education and skill development, in which the administration encouraged investments. Investors were also told that with a "strong government" at the Centre and a "secure future", J&K was now one of the safest places to do business in the nation.

From the Mumbai roadshow, held in partnership with the Confederation of Indian Industry, Sharma said J&K expected investment pledge of over Rs 1,000 crore. At the Bengaluru and Kolkata roadshows, the investor interest was to the tune of Rs 600 crore and Rs 2,000 crore, respectively, he added. On the sidelines of the roadshow, J&K Lieutenant Governor Girish Chandra Murmu met with industry leaders, including Uday Kotak, executive vice chairman and managing director at Kotak Mahindra Bank, in Mumbai.

J&K Finance Secretary Arun Kumar Mehta said the private sector has a huge investment opportunity in J&K. He claimed that reports of J&K's economy coming to a halt after Article 370 of the Constitution was diluted and the erstwhile state was declared a Union Territory were "totally incorrect". "Look at the GST growth in December. We were at 40 per cent month to month, highest in the country. In February, we are likely to be around 30 per cent... If we are at 30 per cent, we will again be highest in the country. So, GST growth at the moment is roughly in the order of 12 per cent, that puts us in the best category among states and UTs. While problems have been there, the growth story is there."

According to a preliminary economic loss assessment report released by the Kashmir Chamber of Commerce and Industry in January, J&K's economy had suffered a loss of Rs 17,878.18 crore between August 5, 2019 and December 3, 2019.

BRIEFLY

Gold futures jump ₹433 on widening bets

New Delhi: Gold prices on Friday jumped Rs 433 to Rs 42,472 per 10 gram in futures trade as speculators widened their bets driven by firm trend overseas. The trading in the first half was closed on account of 'Mahashivratri'. On the Multi Commodity Exchange, gold contracts for April traded higher by Rs 433, or 1.03 per cent, to Rs 42,472 per 10 gram in a business turnover of 1,354 lots. The yellow metal for June delivery climbed Rs 411, or 0.97 per cent, to Rs 42,649 per 10 gram in a business turnover of 109 lots. Fresh positions built up by participants on positive cues from global markets mainly led to rise in gold prices, analysts said.

'Bharti Infratel, Indus Towers merger okayed'

New Delhi: The Department of Telecommunications (DoT) on Friday approved the merger of the country's largest mobile tower company Indus Towers with Bharti Infratel, according to official sources. The combination of Bharti Infratel and Indus Towers will create a pan-India tower company with over 163,000 towers, operating across all 22 telecom service areas. The combined entity will be the largest tower company in the world outside China. "DoT has approved merger of Indus Towers with Bharti Infratel," an official source said.

Wipro Digital buys Rational Interaction

New Delhi: Wipro Digital, the digital business unit of IT major Wipro, on Friday said it has acquired digital customer experience firm Rational Interaction. Wipro Digital didn't disclose the acquisition amount. "The acquisition will scale Wipro Digital's offering for Chief Marketing Officers, connecting Rational Interaction's ability to map and orchestrate the customer journey with Wipro Digital's ability to design and build experiences at global scale," a statement said. **PTI**

Govt in favour of amendments to competition law; seeks comments

PRESS TRUST OF INDIA
NEW DELHI, FEBRUARY 21

THE GOVERNMENT has proposed various amendments to competition law, including a provision for persons to seek settlement of ongoing cases.

The draft bill to amend the Competition Act, 2002, has been made public more than six months after an expert panel suggested sweeping changes to the law.

In the bill, prepared by the corporate affairs ministry, provision for settlement of cases has been proposed, among others.

In certain cases, a person can submit an application in writing to the Competition Commission of India (CCI) proposing settlement of the proceeding initiated for the alleged contraventions, as per the bill.

Kuroda says virus impact likely biggest topic at G20 meeting

REUTERS
TOKYO, FEBRUARY 21

THE IMPACT of the new coronavirus outbreak on global growth will be a key issue at this weekend's meeting of G20 finance leaders, Bank of Japan Governor Haruhiko Kuroda said, underscoring growing concern over the fallout from the epidemic.

Kuroda said it was not yet time to discuss whether additional monetary easing was needed to prevent the virus outbreak from damaging Japan's economic recovery.

But the BOJ stood ready to take additional steps "without hesitation" as needed, he told lawmakers before departing for the Group of 20 finance gathering in Riyadh that kicks off on Saturday.

"The biggest topic on the agenda at this weekend's G20 meeting will probably be how the coronavirus will affect the global economy. I'd like to fully exchange information and opinions there."

Kuroda said Japan's economy is likely to continue a moderate expansion as temporary factors such as a pullback in demand after an Oct. 1 sales tax hike, typhoon and warm winter taper off. But he warned that the new virus poses a major uncertainty to the economic outlook by hurting China-bound exports, output and inbound tourism.

The virus has killed more than 2,200 people in mainland China and its fallout has paralysed the world's second-biggest economy, which has in turn disrupted trade, supply chains and Chinese tourism.

IATA: Coronavirus may slash $29 bn from airlines' revenue

Tokyo: The outbreak of the new virus threatens to erase $29 billion of this year's revenue for global airlines, mostly for Chinese carriers, as travel crashes worldwide, according to the International Air Transport Association.

It said on Thursday the virus causing COVID-19 has the potential for causing a 13 per cent decline in demand for Asian carriers this year.

The contraction comes at a time Asian airlines' sales had been growing, the group said. Global air traffic will be reduced by 4.7 per cent for the year, marking the first overall decline since the financial crisis of 2008 and 2009, IATA said. **AP**

Mahindra Renewables to sell entire stake in 3 arms for nearly ₹340 cr

PRESS TRUST OF INDIA
NEW DELHI, FEBRUARY 21

MAHINDRA & Mahindra on Friday said its wholly-owned arm Mahindra Renewables will sell its entire stake in three subsidiaries to CLP India, a part of Hong Kong-based CLP Group, for nearly Rs 340 crore.

Mahindra Renewables Pvt Ltd (MRPL) has on Friday agreed to sell its entire stake aggregating 100 per cent of the paid-up equity share capital in Cleansolar Renewable Energy Pvt Ltd (CREPL), Divine Solren Pvt Ltd (DSPL) and Neo Solren Pvt Ltd (NSPL), wholly-owned subsidiaries of MRPL, to CLP India Pvt Ltd (CLP), Mahindra & Mahindra said in a regulatory filing.

As per the share purchase agreement, CLP will acquire 96,23,000 equity shares of Rs 10 each in CREPL at a price of Rs 113.11 per share, aggregating to Rs 108.85 crore.

NCAER pegs GDP at 4.9% in 2019-20

PRESS TRUST OF INDIA
NEW DELHI, FEBRUARY 21

THINK TANK National Council of Applied Economic Research (NCAER) on Friday pegged the economic growth for the current fiscal at 4.9 per cent, a tad down from 5 per cent estimated by the National Statistical Office (NSO).

However, for 2020-21, the NCEAR expects the Indian economy to improve its growth rate to 5.6 per cent.

Indian economy grew by 6.1 per cent in 2018-19.

"GDP growth is forecast to be 4.9 per cent in Q3: 2019-20, and 5.1 per cent in Q4: 2019-20. The annual growth rates for 2019-20 and 2020-21 are forecast to be 4.9 per cent and 5.6 per cent, respectively," an NCEAR statement said.

The NSO as well as the RBI has projected the GDP growth rate at 5 per cent for the current fiscal.

The NCEAR has indicated some improvement in the fourth quarter of the current financial year.

Elaborating further it said, "Due to better rainfall in the monsoon as well as the post-monsoon seasons and considerable improvement in the storage of water in major reservoirs of the country, the prospects for growth in the agricultural sector remain bright."

Both the Ministry of Agriculture's second advance estimates and NCAER's own estimates point to higher agricultural output in the current fiscal versus the previous year.

This should also lead to lowering of food inflation in the coming months, which has otherwise remained high due to the lower than expected output of a few commodities, particularly vegetables and pulses, it added.

3 KEY POINTS

1. For 2020-21, the NCEAR expects the economy to improve its growth rate to 5.6%.
2. The NSO as well as the RBI has projected the GDP growth rate at 5 per cent for the current fiscal.
3. The NCEAR has indicated some improvement in the fourth quarter of the current financial year.

GMR-ADP deal for airport biz gets CCI nod

PRESS TRUST OF INDIA
NEW DELHI, FEBRUARY 21

COMPETITION COMMISSION of India has given approval for GMR group's proposed 49 per cent stake sale in its airport business to France's Groupe ADP.

The regulator's clearance is through the green channel, which allows for an automatic system for speedy approval of combinations, subject to certain conditions.

On Thursday, GMR Infrastructure said the French group would acquire 49 per cent stake in its airport business for Rs 10,780 crore, a deal that will help the domestic entity reduce its debt burden.

EU looks to nudge down spending plans to break Budget deadlock

Brussels: European Union leaders were looking on Friday to rein in their proposed spending from 2021 in a bid to break a budget deadlock that pits the bloc's few wealthy net contributors against their poorer peers who benefit from handouts. Some 24 hours of talks between leaders have failed to bridge divisions over the size of their next seven-year budget and how to spend it. Denmark, Austria, Sweden and the Netherlands have dug in their heels, insisting that spending not top 1 per cent of output. **REUTERS**
