No plan to extend 21-day lockdown

PRESS TRUST OF INDIA
New Delhi, March 30

THE GOVERNMENT ON Monday said that there was no immediate plan to extend the 21-day lockdown amid fears that shutdown of businesses across the country to counter the spread of coronavirus may trigger severe economic and social distress.

The clarification by Cabinet secretary Rajiv Gauba came after hundreds of thousands of migrant labourers undertook long journeys from major urban centres on foot to their homes in the last five days, reflecting their struggle for survival due to job losses following the lockdown.

The central government has already directed states to make arrangements for shelter and food for the migrant workers.

In a tweet, the government's Press Information Bureau said: "There are rumours & media reports, claiming that the Government will extend the #Lockdown21 when it expires. The Cabinet Secretary has denied these reports, and stated that they are baseless."

India still in local transmission stage: Health min

REITERATING THAT COVID-19 is still in the local transmission stage in India, the Health Ministry on Monday said it took 12 days for cases of infection to rise from 100 to 1,000 in the country and that the rate of increase has been slower than some of the developed countries.

Addressing the daily press briefing on the actions taken, preparedness and updates on COVID-19, joint secretary in the ministry of health Lav Agarwal said 92 new cases and four deaths due to coronavirus have been reported in India since Sunday, taking total cases to 1,071 and the number of deaths to 29.

"It took 12 days for cases to rise from 100 to 1,000 in our country, whereas seven other developed nations having lesser population

ried out a comprehensive review of the situation arising out of the lockdown, including movement of the migrant labourers.

There has been fears that the lockdown may spark severe economic and social distress.

Underlining the importance of social distancing, it said even one person's carelessness can lead to the spread of this pandemic

Underlining the importance of social distancing, he said even one person's carelessness can lead to the spread of this pandemic.

In a letter to Prime Minister Narendra Modi, Congress leader Rahul Gandhi on Sunday said the sudden lockdown has created immense "panic" and "confusion". He called for steps other than a total lockdown announced by some

"Technically, Covid-19 is still in the local transmission stage in the country as there has been no community transmission as of now," he said, adding, "if there will be a community transmission we will want to convey it to the community through you (media) to increase the level of alertness and management for the infection at the field level."

Speaking at the same press conference, Raman R Gangakhedkar, head of epidemiology and communicable diseases at the Indian Council of Medical Research (ICMR), said 38,442 tests have been conducted till now, out of which 3,501 were done on Sunday. — PTI

Gandhi said the number of poor people in India who are dependent on a daily income is too large to unilaterally shut down all economic activities in the wake of the pandemic.

PRESS TRUST OF INDIA
New Delhi, March 30

THE RAILWAY BOARD has instructed zonal railways that they might be required to convert up to 20,000 coaches into isolation wards as part of its preparedness to fight the coronavirus outbreak.

In a letter to all the zonal general managers on Monday, the board has said that initially 5,000 coaches will be converted.

It also said that the railways has held consultations with Armed Forces Medical Services, medical departments of

various zonal railways, and Ayushman Bharat before taking the decision.

Five zonal railways have already prepared prototypes for the same, it said.

"...As part of Covid-19 preparedness, it was advised in the video conference held on March 25 that a few rakes may be converted into quarantine/isolation coaches in consultation with the medical department, so as to augment the quarantine facilities being created. In this connection consultations were held with Armed Forces Medical Ser-

Auto makers asked to make ventilators

PRESS TRUST OF INDIA
New Delhi, March 30

THE CENTRE HAS asked automobile manufacturers to use their facilities to make ventilators to boost the country's capacity of such machines in view of a spike in Covid-19 cases in the country. It also said that the defence research and development organisation (DRDO) will begin manufacturing 20,000 N-95 masks per day from the next week.

According to the health ministry, over 14,000 existing ventilators are earmarked for Covid-19 patients in various

hospitals in the country, while there are 11.95 lakh N-95 masks in stock.

An additional 5 lakh masks were distributed during the last two days and 1.40 lakh will be distributed on Monday, it said.

The ministry said 3.34 lakh personal protection equipment (PPE) coveralls are available with hospitals in the country and another 3 lakh donated coveralls will be received from abroad by

April 4.

"Automobile manufacturers have been asked to manufacture ventilators and they are working towards this end," the health ministry said in a tweet.

Besides, the ministry has asked the Bharat Electronics Limited (BEL), a public sector undertaking under the Ministry of Defence, to manufacture 30,000 ventilators in the next two months in collaboration with local manu-

facturers.

Among the private players, Agva Healthcare, Noida has been given an order to manufacture 10,000 ventilators within a month. Their supplies are expected to commence in the second week of April, the ministry said in another tweet.

Two domestic manufacturers are producing 50,000 N-95 masks per day. This is expected to go up to 1 lakh per day within next week, it said.

ADB to invest \$100 m in Indian infra via NIIF

PRESS TRUST OF INDIA
Mumbai, March 30

MULTILATERAL INSTITUTION ASIAN Development Bank (ADB) on Monday announced a \$100-million funding for the Indian infrastructure sector through the government-promoted NIIF.

The Manila-based body will be investing in the National Investment and Infrastructure Fund's (NIIF) "fund of funds" which will ensure that the actual money invested will be a few times more than the \$100 million. The investment announcement comes at a critical time for India, as the already-sagging economic growth is feared to be taking a heavy hit due to the coronavirus pandemic.

"ADB's commitment to NIIF fund of funds during these extraordinary and challenging times is highly meaningful," NIIF's managing director and

chief executive Sujoy Bose said. He added that the commitment should be seen as reflective of ADB's confidence in the continued growth and potential of the Indian economy, its skilled private equity fund managers and the large pool of determined entrepreneurs who seek capital to grow and strengthen their companies.

"ADB's investment in NIIF will help catalyse institutional capital into domestic private equity funds in India, thereby contributing to greater availability of long-term growth financing for private sector companies and leading to the creation of quality jobs, social infrastructure development, and economic growth," its vice-president Diwakar Gupta said.

Bose said ADB has been funding Indian PE funds for two decades now, and added the latest move will help the NIIF commit money to private equity fund managers.

ICEA: Bring product maintenance under essential services

THE CONSUMER electronics industry has urged the government to bring service and maintenance outlets as well as warehouses storing electronic products under essential services during the lockdown.

In a letter to Prime Minister Narendra Modi, the India Cellular and Electronics Association (ICEA) said with extended lockdown period and nearly 98% of internet connectivity being used through smartphones, tablets and laptops, there is tremendous pressure on these gadgets. The higher-than-normal usage will result in the need for regular maintenance, repair, service and replacement of old gadgets.

ICEA president Pankaj Mohindroo said smartphones, tablets, laptops and computers are mission critical to
